Registered Behavior Technician
Therapyland, LLC   **2020 - Present**

- Structure one-on-one instruction with children with Autism and other developmental disabilities in a clinical setting
- Collect behavioral data using Catalyst to asses client progress and update programs for optimal treatment outcomes
- Participate in team meetings with Board Certified Behavior Analysts (BCBA), parents and other team members to discuss client progress using a data-driven approach to highlight what is working and what needs to be changed
- Create a fun and supportive learning environment to implement educational programs and behavior interventions as designed by Behavior Analyst Supervisor

Administrative Assistant & Data Support
Emergency Care of Atlanta   **2016 - 2020**

- Analyzed employee procedures and developed custom Python-based software to automate repetitive, time consuming computer tasks (e.g., spreadsheet construction, data entry/export management, etc.), saving approximately 2 hours of work per day
- Developed a data analytics system using Python to aggregate and track health care provider metrics and generate easy-to-read monthly productivity reports on Excel spreadsheets
- Provided support to medical office: scheduling medical staff, communicating via phone and email with patients and insurance companies, managing and exporting patient data for billing purposes

Assistant Project Manager
The Rob Salamida Company   **2014 – 2016**

- Worked directly with CEO on development projects for inventory management and distribution
- Analyzed national sales data using a custom program written in R to find new potential markets for in-store sales based on direct-to-consumer sales data leading to several successful product launches
- Managed inventory and workflow for multiple product and material warehouses

Research Assistant
Georgia Institute of Technology   **2008 – 2012**

- Recruited and interviewed participants for various psychology research projects
- Provided research support by setting up and running experiments, collecting participant data, entering data and maintaining an organized database

Education

B.S. Psychology, *magna cum laude,* Georgia Institute of Technology, Atlanta, GA   **2012**

Data Science Specialization, Johns Hopkins   **2016**

- Series of courses on cleaning, organizing, analyzing and graphically presenting data using the R language for statistical computing
